Coverage Support

Benefits Investigation

Together with GSK Oncology offers patient-specific benefits investigations. Please note that investigations do not guarantee a result and it is the physician's responsibility to check with the payer.

Together with GSK Oncology can:

- Contact insurance companies to obtain specific coverage information
- Check payer's prior authorization requirements
- Determine estimated patient out-of-pocket responsibility

Together with GSK Oncology will contact you to explain estimated coverage.

Prior Authorization (PA) and Appeals Support

Together with GSK Oncology can:

- Research plan requirements
- Outline steps required for obtaining a PA from the patient's plan
- Obtain unique and plan-specific PA forms (where applicable)

Together with GSK Oncology can also follow up with the plan to determine the status of the PA submission (if requested).*

*Remember, *Together with GSK Oncology* cannot complete PA forms or submit related information to plans. Instead, it is the responsibility of the office and prescribing physician to provide the plan with patient-specific clinical documentation.

Co-pay Assistance

Together with GSK Oncology can evaluate the patient for potential assistance options, including the GSK Co-pay Program. If approved, patients could pay as little as \$0 for their medicine.

If your patient is approved, the GSK Co-pay Program may help with the patient's cost share for the GSK product and the cost of administration, up to \$100 per administration for intravenous products, up to a program total of \$26,000 annually. Residents of Massachusetts, Minnesota, or Rhode Island are not eligible for reimbursement of administrative fees. Doctor's office visits, labs, and other ancillary services are not included in the Co-pay Program.

Together with GSK Oncology must determine patient eligibility.

Please visit [TogetherwithGSKOncology.com](https://www.togetherwithgskoncology.com) for full terms and conditions and information on how to apply.

Claims Assistance

Claim submission requirements can vary by plan.

Together with GSK Oncology can:

- Share examples of CMS 1500 and 1450 claim forms
- Outline site-of-care differences in coding services
- Provide payer-specific information

Together with GSK Oncology can also provide appeals research if necessary; **Together with GSK Oncology cannot submit appeal letters on behalf of physicians or submit claim forms directly to payers.**

▪ **Services Include:**

- Researching the appeals requirements for specific payers
- Faxing a sample Letter of Medical Necessity to the physician's office
- Tracking status of appeals once submitted

Together with GSK Oncology does not guarantee coverage or payer reimbursement for product treatment or administration; therefore, healthcare professionals should confirm information directly with payers.

Patient Assistance Program

Together with GSK Oncology can help eligible uninsured patients and Medicare patients who meet additional eligibility requirements get access to GSK oncology products free of charge through GSK's Patient Assistance Program.

Referral to Third-party Support Services

Third-party organizations—typically foundations or advocacy organizations—may be able to provide some financial support for patients. The funding available varies for each group, and funding levels change regularly.

Together with GSK Oncology can provide patients with names of the organizations but will not contact them on behalf of patients.
